EXPERIENCE

“

We really thought we would have to sacrifice our view for added security, but with Amplimesh® we have the best of both worlds. We couldn't be happier.

Lianne, Bendigo VIC

My mum had Amplimesh® on her home and she loved it – now I've got it on my family home. Love the fact our home is protected 24/7 even if we're on holidays.

Alina, Cottesloe WA

Staff were great from the first phone call to installation. Feel much more secure now and still have the great panoramic views of the beach.

Brett, Dee Why NSW

KEEPING KIDS SAFE

Amplimesh® fixed security window screens are built using fall prevention technology.

SECURITY SCREENS for

WINDOWS

As windows increase in size, so does their attractiveness to thieves and other unwanted intruders. Amplimesh® Window Screens allow fresh air to flow through your home, while providing the peace of mind that your home is secure.

WARRANTY:

SUPASCREEN

16
YEARS

INTRUDAGUARD

10
YEARS

Amplimesh® Security Window Screens come in both fixed and exit formats. Amplimesh® Security Exit Screens maintain the same high level of security and great looks as fixed screens but with the added benefit that your family has a simple escape route in the case of an emergency. Exit screens come fitted with simple to operate, but child friendly push-open or slide-open mechanisms. Where fall prevention is the greater concern, Amplimesh® Fixed Window Screens are fitted with fall prevention technology which is designed and rated to prevent pushing the screens out from the inside when the screens are fitted at a higher level.

FIXED WINDOW SCREENS

CHOOSE THE PERFECT SECURITY SCREEN TO SUIT YOUR STYLE

SUPASCREEN® SECURITY MESH

When it comes down to the wire, on average, SupaScreen® has a 13% higher MPa material performance rating over the leading competitors' 304 grade mesh. SupaScreen® products have been strength proven to not only withstand the Australian Standard impact requirements of 5 x 100J impacts, but also additional singular impact performance testing of up to **2300J** and **3200J** for our commercial series.

INTRUDAGUARD® SECURITY MESH

IntrudaGuard® has one of the highest visibility ratings compared with similar perforated aluminium systems yet has a 13% tighter aperture, meaning less insects in your home. Strong and easy to maintain, IntrudaGuard® will look good all year round whilst offering outstanding protection.
